countries relating the discrimination towards Roma people, to create together advertising spots of awareness against the discrimination of Roma and make Roma people aware for their rights, in order to help them to be integrated in the local society, and to banish any discrimination and any unequal treatment from the citizens and especially the young who form the base of Europe.

For the realization of advertising spots, the young participants will use the Stop Motion technique. This animation technique permits to create movement from photos and stationary objects and make a physically manipulated object appear to move on its own. The object is moved in small increments between individually photographed frames, creating the illusion of movement.

At the end of the youth exchange, the participants will project and discuss for their spots with the citizens at the Garden Theater of Lefkas, in a coffee place frequented by young people and at the neighbourhood of Roma people in Lefkas.

The spots will be also broadcasted on local TV and accessible on the web. During the exchange the youngsters will create an educational guide on the theme of promoting human values through the creation of advertising spots, using the technique stop motion.

Venue:

Our youth exchange will take place in Lefkada.
