" YES Club - Youth Entrepreneurs Social Club"

Working language: English

Summary of the project:

Over the past decades, social entrepreneurship has emerged globally as an innovative economic actor combining positive social impact with entrepreneurial spirit at the service of common good. While addressing social, environmental or societal issues, social enterprises also enable the improvement of the inclusiveness of the labour market by creating new job opportunities and encourage participation of different stakeholders in decision making process.

The success and impact of various social enterprises and the increasing interest in such initiatives worldwide encourage institutions such as the European Commission to promote and support social entrepreneurship development.

However, despite its growing policy attractiveness, the lack of knowledge and awareness about social entrepreneurship and its benefits among youth, and the lack of existing support for developing specific competences, are the first obstacles in the development of social entrepreneurship among youth in the world.

Due to this situation, we have previously developed an e-learning platform on Youth E-club.eu by involving 8 partners from different continents, which aims at spreading this type of entrepreneurship among youth in their countries. As a continuation, we are planning to implement a second phase named « E-stream » (Entrepreneurship stream) for:

- improving the content and services of the club to respond to the progressive needs of the beneficiaries
- extending to new partners and countries
- and sustaining the impact of this platform, which will strengthen the capacity for implementing social entrepreneurship initiatives among youth.

"YES club!": youthecub.eu

Our project consists of the following activities:

- 2days kick-off meeting in Nepal during which representatives from each partner organization will gather for defining the details of the following activities and meeting youth and experts of the club
- 2 surveys for identifying the evolutive needs in terms of training and support of: current beneficiaries of the platform, and future beneficiaries of new partners involved
- 10-days training in Greece for previous e-mentors, educators experimented in the education of young people in entrepreneurship, and young leaders, selected among the active beneficiaries of the platform, where additional online training courses will be created for E-stream phase
- Improvement of the content with countries' specificities by a group of partner countries' experts
- Creation of pedagogical videos to enrich the content of the platform
- 8-days training in Vietnam for educating future e-mentors of the virtual club
- Creation of 2 user guides for E-stream youth and e-mentors
- An online Social Initiatives Fair, organized by each partner for supporting local social initiatives among successful participants of E-seed programme
- A Social Fair Event in each partner country for disseminating the results of the project and promoting the virtual club
- 2-days evaluation meeting in Argentina.

Aims of the project:

The basic aims of our project are:

- Develop the skills of youth workers & educators , particularly in social entrepreneurship education and for supporting young people online, including disadvantaged young people.
- Develop the ICT skills of youth workers by training in the use of Moodle, a free software learning platform, to create online training and modernize their working methods
- Develop and recognize the pedagogical, civic, technical (including ICT) and entrepreneurial skills of youth entrepreneurship club members (including disadvantaged young people) in order to facilitate their

integration into the labour market through social entrepreneurship, and encourage their initiatives.

- Develop and promote the virtual club of youth entrepreneurs with services tailored to young people of different abilities, and contribute to the promotion and education of social entrepreneurship among young people:

- connect young people with their peers, social entrepreneurs and persons resources from different countries of the world.

- create interactive and advanced e-learning courses on the topic of social entrepreneurship that respond to the needs of young people with personalized and sustainable support.

- foster dialogue between young people and decision makers to promote & improve social entrepreneurship initiatives and more broadly positive impact initiatives within and for their communities.

- broaden the existing international network and promote distance cooperation between young people wishing to engage in social entrepreneurship to enable them to broaden their professional network, strengthen their motivation to undertake in a sustainable way and to increase their potential for creativity and innovation in the field of social entrepreneurship.

- Continue to facilitate access to mobility and non-formal learning activities for young people with fewer opportunities to improve their skills, facilitate their social inclusion and their active participation in society

- Develop cooperation between youth organizations, education and training institutions, representatives of the business world and the labor market (including entrepreneurs) and decision-makers to improve their synergies and complementarities in the training and support of young

"YES club!": youthecub.eu

people in order to facilitate their insertion in the labor market and in society

- Train new e-mentors and build the capacity of the current e-mentors of the platform in order to:
 - provide appropriate online support for the beneficiaries of the virtual club
 - update the content of the youth entrepreneurship club to meet the evolving needs of its members.
- support the social initiatives of young people beneficiaries of the club and make them more visible.

Description of the concrete idea of our Youth entrepreneurship club (Youtheclub.eu) :

Our platform "**youtheclub.eu**" provides an opportunity for young people aged 17-35 to do something useful for them self and for their community, i.e. to create and realize socially innovative project/ initiative, improve their professional skills, become brave leaders and eventually launch their own social business that will create jobs in their hosting countries.

Youth entrepreneur's club provides multiple benefits:

- contact & building partnership with other young people who are interested to the same topic "the social entrepreneurship,
- improving the entrepreneurship skills & profile of the members of the club.
- helping the members to find financial means for the realization of socially innovative project.
- developing the ability of the club members to turn their passion into something into a job,
- Supporting young people members of the club to start social business and the solution of self-employment and the employment of others.

We propose two evolutive and complementary programs under our youth entrepreneurship club :

Youth-E club -seed

Youth-E-club -stream

"YES club!": youtheclub.eu

Youth E-Club-Seed Youth E-Club-Seed is aimed for youngsters who would like to develop their entrepreneurship skills and profile & define socially innovative project that can answer to one need of their communities.

E=Seed contain 4 interactive courses:

Course I: Social problems in my community: This course explain how to address social problems in your community and how to find a solutions.

Course II: Solve social problems from Idea to action this course provide tools and methods to came with innovative ideas to solve the existing 7 defined social problem.

Course III: Entrepreneurship & social entrepreneurship: This course support learners to know more about entrepreneurship^ social entrepreneurship skills.

Course IV: The profile of social entrepreneur: In this course they can learn more about the personal characteristics & skills to become social entrepreneur & how to improve their competences.

People who finish successfully this course can upload their certificate. They can go the advanced level & continue their journey through Youth entrepreneur's club E-stream. We expect to create this content for E-stream:

Course I: Better society is possible. It contains two modules: 1. I have a dream; 2. Social innovation.

The aim for the course is to encourage youngsters to continue "dreaming" about better society and to help them to find innovative solutions for social problems. In this course, the participants need to complete several steps and need to create a group of their peers, which will write project idea for socially innovative project for their community. If they complete their course I, they continue their journey through the project, entering to course II.

Course II: It contains three modules: 1. Tournament of social innovations; 2. How to concept a project; 3. My community – my responsibility.

The aim of the course is to help youngsters to address social problems on innovative way and to develop high-quality plans for actions in community.

Participants who are finished course I and formed a group of their peers (from 5 to 7 persons) are invited to come on one-day on the spot to the partner organization event organized by the partner organization named "tournament of social innovations" where they will present their ideas of projects which aimed to solve some social problems. The supporters & evaluator team will select the best project ideas. The participants who's ideas is accepted are allowed to prepare their business plan through the youth E club platform. The groups have to finish the course II and to write on-line project application throughout platform youth.

Once the project's team is approved, participants are obligated to find at least half of the required funds in their communities. Those funds can be materials, service, facilitations etc...

Erasmus+

"YES club!": youthecub.eu

The participants whose project is approved are continuing their journey through the course III and course IV.

In course III named My responsibility for success, participants need to finish four modules: 1. Project management science; 2. We have a problem - a great opportunity; 3. Can you hear us?; 4. Money is multiplying in right hands: part I: own finances. Also, during the course III, participants need to implement their approved project idea in the community.

In course IV: Entrepreneurship and me, participants continue implementation of their projects and need to write project implementation report. Also, in order to continue their journey through the programme, they need to complete two modules of this course: 1) The spirit of social entrepreneur in you; 2) My Way.

If they are selected, participants entering in Youth-E-club -stream project where they need to develop and run their social business with the help and mentorship of their mentors, which will help them to develop business idea, develop product prototype, test the business idea and finally run the business. This is 10 months long process (from idea development to running business). All the time, participants are running through three online courses and need to complete it, in order to develop and implement their business idea. Depending of the idea, each participants got his mentor, which follow him through the process.

The course V will allow to the beneficiaries to evaluate their local initiative and to prepare the starting of their business on the base of the result of their initiative.

Four thinks to take in consideration:

- 1) Successful competition of Youth-E-club -seed projects initiatives (four courses and project idea)
- 2) Own interest to develop idea and turn it to social business
- 3) Personal characteristics such are GRIT, Honesty, Empathy, Social Activism, Justice, Sense for Entrepreneurship, Values orientation, Professional interests (all of these are developed & measured by surveys during M-seed phase)
- 4) Participants engagement during project implementation in community
- 5) Knowledge achieved in E-seed & E-stream sessions.
